1 Specification Details

Trade Sections: Insulation
Description: Terra Lana Wool Insulation
Keywords: Insulation wool

2 Clauses

2.1 Scope

2.1.1 Scope

Supply and install the selected Terra Lana Wool Insulation to floors, walls, ceilings, roofs and other areas as identified on the drawings, complete with accessories. All aspects of this work shall be in complete accordance with Terra Lana Wool Insulation product manuals, installation guides, Terra Lana Wool Insulation, and other relevant product manufacturers' recommendations, and as shown on the drawings.

Visit www.terralana.co.nz, call 0800 485 262 or email info@terralana.co.nz for up to date information.

No substitutions are permitted for Terra Lana Wool Insulation where specified in the drawings.

2.1.2 Underfloor Thermal Insulation

Supply and install the selected Terra Lana Underfloor Insulation as identified on the drawings. All aspects of this work shall be in complete accordance with Terra Lana Installation Guides and technical literature, (call 0800 485 262 or check www.terralana.co.nz for the latest information), and other relevant product manufacturers' recommendations, and as shown on the drawings.

BRANZ Appraised for use as a thermal insulating material for framed floors in new and existing domestic and commercial buildings according to the conditions and limitations of BRANZ Appraisal No.1164.

No substitutions are permitted for Terra Lana Underfloor Insulation

2.1.3 Drop In Floor Insulation

Supply and install the selected Terra Lana Underfloor Insulation as identified on the drawings. All aspects of this work shall be in complete accordance with Terra Lana Installation Guides and technical literature, (call 0800 485 262 or check www.terralana.co.nz for the latest information), and other relevant product manufacturers' recommendations, and as shown on the drawings.

BRANZ Appraised for use as a thermal insulating material for framed floors in new and existing domestic and commercial buildings according to the conditions and limitations of BRANZ Appraisal No.1164.

SMARTSPEC

No substitutions are permitted for Terra Lana Underfloor Insulation

2.1.4 Exterior Wall Thermal Insulation

Supply and install the selected Terra Lana Exterior Wall Insulation as identified on the drawings. All aspects of this work shall be in complete accordance with Terra Lana Installation Guides and technical literature, (call 0800 485 262 or check www.terralana.co.nz for the latest information), and other relevant product manufacturers' recommendations, and as shown on the drawings.

BRANZ Appraised for use as a thermal insulating material for framed walls in new and existing domestic and commercial buildings according to the conditions and limitations of BRANZ Appraisal No.682.

No substitutions are permitted for Terra Lana Exterior Wall Insulation

2.1.5 Ceiling Thermal Insulation - Skillion

Supply and install the selected Terra Lana Ceiling Insulation to skillion roof framing as identified on the drawings. All aspects of this work shall be in complete accordance with Terra Lana Installation Guides and technical literature, (call 0800 485 262 or check www.terralana.co.nz for the latest information), and other relevant product manufacturers' recommendations, and as shown on the drawings.

BRANZ Appraised for use as a thermal insulating material for skillion roof framing in new and existing domestic and commercial buildings according to the conditions and limitations of BRANZ Appraisal No.682.

No substitutions are permitted for Terra Lana Ceiling Insulation.

2.1.6 Ceiling Thermal Insulation - Truss Roof

Supply and install the selected Terra Lana Ceiling Insulation to truss roof framing as identified on the drawings. All aspects of this work shall be in complete accordance with Terra Lana Installation Guides and technical literature, (call 0800 485 262 or check www.terralana.co.nz for the latest information), and other relevant product manufacturers' recommendations, and as shown on the drawings.
