SMARTSPEC

1 Specification Details

Trade Sections: Roofing

Description:

Keywords: Roofing, Steel & Tube Roofing, Steel and Tube Roofing, S&T Roofing, spouting & fascia systems, spouting and fascia systems, rainwater systems, rain-water systems, rain water systems, rainwater collection, rain-water collection, rain water collection, spouting, roof spouting, gutters, guttering, roof gutters, roof guttering, downpipes, down pipes, down-pipes, metal spouting, metal gutters, metal guttering, metal downpipes, metal down-pipes, metal down pipes, steel spouting, steel gutters, steel guttering, steel downpipes, steel down-pipes, steel down pipes, metal rainwater system, steel rainwater system, precoated metal rainwater system, precoated metal spouting, precoated metal gutter, precoated metal guttering, precoated metal downpipe, precoated metal down-pipe, precoated metal down pipe, spouting & downpipes, spouting and downpipes, gutters and downpipes, gutters & downpipes, rainwater runoff, rain water runoff, rainwater run-off, rain water run off, rainwater collection, rain water collection, residential spouting, residential gutters, residential downpipes, commercial spouting, commercial gutters, commercial downpipes, rainwater downpipes, gutter & fascia systems, gutter and fascia systems, spouting & fascia systems, spouting and fascia systems, fascia, fascias, fascia systems, metal fascia, metal fascia systems, steel fascia, steel fascia systems, precoated metal fascia, profiled metal fascia, profiled steel fascia, preformed metal fascia, pre-formed metal fascia, manufactured metal fascia, manufactured steel fascia, prepainted steel, pre-painted steel, prefinished steel pre-finished steel, precoated steel, pre-coated steel, coated steel, prepainted metal, pre-painted metal, prefinished metal, pre-finished metal, precoated metal, pre-coated metal, coated metal, roll formed spouting, roll formed guttering, roll formed steel spouting, roll formed steel gutters, roll formed metal guttering, roll formed metal spouting, corrugated roofing, 0.55mm BMT, BMT, bmt, (BMT), base metal thickness, rainwater catchment, rainwater run-off, rainwater run off, run-off, run off, Colorsteel, Colorsteel Endura, Colorsteel Maxx, Zincalume, galvanised steel, galvanised metal, galvanised roofing, Colorsteel, Colorsteel Endura, Colorsteel Maxx, Colorcote, Colorcote ZM8, ZM8, ZMX, ZR8, ZRX, Zincalume, copper spouting, copper guttering, stainless steel spouting, stainless steel guttering, Customline, Multiline Quad, Multiline-Quad, Multiline Square, Multiline-Square, Highline, Plumbline, 175 Commercial, 175Commercial, 300 Commercial, 300Commercial, Multiline Fascia,

SWARTSPEC

2 Clauses

2.1 Scope

Help Note:

Select the appropriate Environmental Category in which the project is situated:

- **Inland Moderate (ISO 9223 Category: C2)**: Typically more than 1000 metres from the exposed coasts or more than 500 metres from industrial emissions.
- **Coastal Moderate (ISO 9223 Category: C3)**: Typically within 500 metres to 1km from breaking surf or in the immediate vicinity of calm salt water such as estuaries.
- **Coastal Severe (ISO 9223 Category: C4)**: Typically commencing from Very Severe Zone up to 500 metres or more inland from breaking surf; or in the immediate vicinity of calm salt water such as harbour foreshores.
- **Coastal Very Severe Zone (ISO 9223 Category: C5M)**: Typically within 50-100 metres from breaking surf on East Coast, 100 - 200 metres from breaking surf on West Coast.
- **Extreme Marine Zone**: Typically within 50 metres from breaking surf on East Coast, and within 100 metres from breaking surf on West Coast.

Note: Downpipes are NOT included in Steel & Tube Spouting and Fascia Systems and therefore should be specified elsewhere.

For technical information on products to attach to this project, please visit https://productspec.co.nz/en/supplier/steel & tube

2.1.1 Inland Moderate (C2)

Supply and install the selected Steel & Tube Metal Spouting and Fascia Systems to the roofs identified on the drawings complete with all accessories. All aspects of this work shall be in complete accordance with Steel & Tube manufacturers' recommendations, (check www.steelandtube.co.nz, or call 0800 333 247 for the latest editions), and as shown on the drawings.

No substitutions are permitted for Steel & Tube Spouting & Fascia Systems products.

2.1.2 Coastal Moderate (C3)

Supply and install the selected Steel & Tube Metal Spouting and Fascia Systems to the roofs identified on the drawings complete with all accessories. All aspects of this work shall be in complete accordance with Steel & Tube manufacturers' recommendations, (check www.steelandtube.co.nz, or call 0800 333 247 for the latest editions), and as shown on the drawings.

No substitutions are permitted for Steel & Tube Spouting & Fascia Systems products.

2.1.3 Coastal Severe (C4)

Supply and install the selected Steel & Tube Metal Spouting and Fascia Systems to the roofs identified on the drawings complete with all accessories. All aspects of this work shall be in complete accordance with Steel & Tube manufacturers' recommendations, (check www.steelandtube.co.nz, or call 0800 333 247 for the latest editions), and as shown on the drawings.
