2.1.1 Scope

Supply and install the selected MANROSE Extraction System(s) to the locations shown on the drawings, complete with all accessories. All aspects of this work shall be in strict accordance with MANROSE's technical guidelines, installation specifications and details, (check http://simx.co.nz/categories/extraction-fans , or call 092591660 for the latest editions), other relevant product manufacturers' recommendations, and as shown on the drawings.

No substitutions are permitted for MANROSE Extraction Systems.

2.2 Extraction System Options

2.2.1 Inline Fan Kits

Inline Fan Kits. Manrose Classic & Pro Series complete kits, that include duct, grilles & high performance inline fans

2.2.2 Wall/Ceiling Fans

For low-pitch roofs or between floors, where there is no ceiling access. Manrose & Simx models available.

2.2.3 Through Wall Fan

Used where the bathroom is on an external wall, or there is no ceiling space for an inline fan.

SMARTSPEC

2.2.4 Inline Fan

High performance Manrose, MixFlo and Vent-Axia Fan.

2.2.5 Through Roof Fans

Where there is limited access to the roof space, or where there is no soffit available

2.2.6 Low Voltage Fans

Manrose fans with SELV transformer included, for installation in damp areas - Zone 1, 2 and 3

2.2.7 Window Fans

Used in situations where an existing window fan is being replaced, or where there is no available external wall space or ceiling cavity.

2.2.8 Combination Unit

Manrose Classic, ProSeries and Designer series of Heat/Fan/Light Units and Bathroom Heater unit.

2.3 Extraction Systems -Inline Fan Kits

Help Note:
Inline Fan Kits. Manrose Classic & Pro Series complete kits, that include duct, grilles & high performance inline fans.
