2.3 Co-operation

2.3.1 Co-operation

Co-operate with other trades to ensure that all preliminary and preparatory works are completed to specification and as shown on the drawings.
Co-ordinate with other trades to install Resene Wallpaper Collection wallpaper to all surfaces as required.

2.4 Workmanship

2.4.1 Workmanship

All wallpapering work shall be carried out to best trade practice by experienced and competent tradespeople, familiar with the materials specified and installation and finishing techniques, in accordance with the manufacturer's installation requirements and to the layout shown on the drawings. The wallpaper applicator remains responsible for ensuring proper completion of the work.

Store and handle wallpaper and accessories in accordance with the manufacturer's recommendations, keep materials dry and protect from damage at all times.
Check wallpaper rolls for faults and variation during installation, do not use damaged or faulty products. Ensure all wallpaper for a project is from the same batch.

2.5 Preparation

2.5.1 General

The building must be fully enclosed and weathertight prior to wallpapering.
Substrate surfaces must be stable, sound, rigid and regular, and be dry, clean, and free from contaminants.
Ensure that the substrate surface has been properly prepared and completed as specified and as shown on the drawings before installation. Commencement of work on each section shall be deemed to indicate full acceptance by the Decorator that all preparatory works by other trades are appropriate to achieve the required finished wallpaper results.
