A full list of all product warranty terms and conditions is available upon request.

2.2.2 Co-operation

Co-operate with other trades to ensure that all preliminary and preparatory works are completed to specification and as shown on the drawings prior to installation.

As required, coordinate with other trades to install the specified coating and finishing systems and products to the required layout and standard.

2.2.3 Workmanship

Installation work, including preparation and finishing, of the specified systems and product shall be carried out by experienced applicators, familiar with the specified products and installation techniques, to fully comply with all Mapei NZ Ltd warranty requirements, in accordance with the manufacturer's requirements and as shown on the drawings.

All coatings application and finishing techniques shall be exactly as recommended by Mapei.

All work shall be such as to leave a neat, efficient and robust installation, to the required standard, free from damage and defects.

Make all necessary provisions to protect adjacent work and surfaces from damage during installation.

2.2.4 Delivery & Handling

Store the specified Mapei products undercover, in a weatherproof space, clear of the floor, on a flat, even and level surface. Keep Mapei products dry, out of direct sunlight and protected from damage, moisture and contamination while stored.

Do not use damaged, defective or contaminated products, or products that are beyond their designated shelf life.

Handle all Mapei products in accordance with the manufacturer's requirements as set out in the relevant Technical Data Sheet(s) and in a manner that prevents contamination or deterioration of the material or reduces its performance.
