Keywords: ProFoot, Tile support, Floating deck support, level deck support, deck support, floating platform, aluminium substrate support, adjustable pedestal, pedestal, deck pedestal, deck adjustment system

2 Clauses

2.1 Scope

Help Note:
Designer note: The 'Profoot adjustable pedestal support system' must only be applied to substructures capable of adequately supporting the full support system including deck materials. For further technical assistance contact Marshall Innovations.

2.1.1 Scope:

Supply and install Marshall Innovations - ProFoot Adjustable Pedestal Support System, as specified herein, to the locations and details shown on the design drawings, complete with all necessary components and accessories required for proper installation and performance. All aspects of this work shall comply with the NZ Building Code, related ProFoot Adjustable Pedestal Support System technical literature and publications (check http://www.mwnz.com, or email headoffice@mwnz.com, or call 0800 776 9727 for the latest editions), and other relevant product manufacturers' recommendations.

No substitutions are permitted for ProFoot Adjustable Pedestal Support System.

For the purpose of this specification, Marshall Innovations - ProFoot Adjustable Pedestal Support System is referred to as 'ProFoot Adjustable Pedestal Support System', and all Marshall Innovations associated technical literature and publications, including the Product Technical Statement, installation instructions and drawings, are collectively referred to as the 'Technical Literature'.

ProFoot Adjustable Pedestal Support System is designed for residential and commercial applications as an adjustable substrate system for structural tiles, pavers, composite or timber deck flooring generally in an external application.

Extent of work:

The following is a list and/or general description of the extent of the ProFoot Adjustable Pedestal Support System works, which are more specifically defined in the contract documents, required for the completion of the contract works:

SMARTSPEC

2.2 Requirements

2.2.1 Safety:

Comply with the Health and Safety at Work Act 2015 (HSWA)http://www.worksafe.govt.nz, and with all relevant Health and Safety at Work Regulations 2016, and with all relevant WorkSafe New Zealand (WorkSafe) Approved Codes of Practice and WorkSafe Information and Guidance, particularly those for construction and building maintenance.

2.2.2 Warranty:

ProFoot Adjustable Pedestal Support System Warranty - according to the warranty terms and conditions.

- One - year warranty for ProFoot Adjustable Pedestal Support System materials and installation.
- Provide this warranty on the Marshall Innovations standard warranty form.
- Commence the warranty from the date of permanent installation.

2.2.3 Substitutions:

The ProFoot Adjustable Pedestal Support System shall be as specified herein and on the design drawings. The substitution of the ProFoot Adjustable Pedestal Support System for an alternative brand, system or product is not permitted under any circumstances.

The substitution of a specified ProFoot Adjustable Pedestal Support System or component for an alternative ProFoot Adjustable Pedestal Support System or component by the Contractor shall only be permitted with the Contract Administrator's written authorisation and shall be at no additional cost to the Principal. Should any resultant extra work and/or redesign work be required to accommodate an alternative ProFoot Adjustable Pedestal Support System or component to satisfy design, performance, and compliance requirements, then the cost of these shall be borne by the Contractor.

2.2.4 Producer statement (PS3)

The ProFoot Adjustable Pedestal Support System installer shall furnish a fully completed PS3 Producer Statement (Construction) at time of application for Code Compliance Certificate. The Producer Statement shall accurately reflect the scope of the installation of the ProFoot Adjustable Pedestal Support System in accordance with the consented drawings and specifications.

2.2.5 Inspections & reporting:

BCA inspections shall take place at each of the stages as scheduled in the Building Consent. Confirm a written programme to facilitate these inspections, including notification when each stage of the work is ready for inspection.

Carry out all necessary pre-installation and installation inspections for each area of the works.

Complete all necessary Pre-Installation Checklists prior to installation, and all necessary Installation Checklists.
