# 2 Clauses

## 2.1 Scope

### 2.1.1 Scope

Supply and install the specified Sliding & Folding Door Hardware from Allegion to the locations as shown on the drawings and schedules, complete with accessories. All aspects of this work shall be in accordance with the manufacturer's technical literature and installation guidelines (check www.allegion.co.nz, call 0800 477 869 or email nzinfo@allegion.com for the latest editions), other relevant product manufacturers' recommendations, and as indicated on the drawings and schedules.

No substitutions are permitted for the specified Sliding & Folding Door Hardware from Allegion.

## 2.2 Requirements

### 2.2.1 Co-operation

Co-operate with other trades to ensure that all preliminary and preparatory works are completed to specification and as shown on the drawings.
Co-ordinate with other trades to install the specified sliding/folding door system hardware as required.

### 2.2.2 Workmanship

Installation work shall be carried out by suitably qualified installers, familiar with the specified products and installation techniques, to fully comply with all warranty requirements and in accordance with the manufacturer's installation requirements.

All work shall be such as to leave a neat, efficient and robust installation.

Leave installed hardware clean and free from damage and defects of any kind.

### 2.2.3 Delivery & Handling

Store sliding/folding door system hardware in a secure and weatherproof space, off the floor, on a flat, level surface, and in a manner that prevents any damage or deterioration to the products. Keep stored hardware dry and protected from damage, moisture and contamination at all times.

SMARTSPEC

Inspect each hardware item for defects and damage prior to installation. Reject any item found to be defective or damaged and contact the supplier for replacement.

Handle sliding/folding door system hardware in accordance with the manufacturer's recommendations and in a manner that prevents damage - in particular any surface marking.

#### 2.2.4 Samples

Provide samples, as requested, of the specified sliding/folding door system hardware for the approval of the Architect/Designer. Do not proceed until the samples have been approved.

#### 2.2.5 Installation

Install the specified sliding/folding door systems to the locations and details shown on the drawings and Door Hardware Schedule, in accordance with the manufacturer's requirements, to the required operating performance and functionality.

#### 2.2.6 Commissioning

Commission the specified sliding/folding door systems and their moving components to the required operating performance, functionality and tolerances, and verify that each system is in full working order.

#### 2.2.7 Completion

Check that the specified sliding/folding door system hardware has been installed correctly and commissioned to the required operating performance and functionality.
Check that all components are firmly fixed in place without restricting the operation of their moving parts.

Check installed sliding/folding door system hardware for damage, defects and faults - carry out repairs and/or replace hardware items as necessary.

Leave all sliding/folding door system hardware in full working order to the required operating performance and functionality in accordance with the manufacturer's requirements.
Leave the surrounding work area clean and free of rubbish. Remove associated rubbish from the site.

Issue to the Owner a copy of the manufacturer's maintenance requirements and a copy of the Allegion Warranty for each system installed.

## 2.3 Exterior Folding System

*Help Note:*
Systems are listed in alphabetical order and capacity rating.
