2 Clauses

2.1 Scope

Help Note:
Select the appropriate Craftstone Real Stone Veneer style.

Craftstone Real-Stone Veneer is available in three different styles and various colour options:
'**Schist-Clad**' - individual pieces of natural schist stones that are installed individually
'**Schist-Clad Panels**' - random sized natural schist stone pieces that have been factory precut and adhered to modular panels (550 x 200mm).
'**Feature-Schist Panels**' - rectangular natural schist stone pieces that have been factory precut and adhered to modular panels (600 x 150mm).

Contact Craftstone on 0800 638 899 for additional product information.

For technical information on products to attach to this project, please visit productspec.co.nz/en/supplier/craftstone%20new%20zealand.

2.1.1 'Schist-Clad' Real Stone Veneer

Supply and install the selected Craftstone 'Schist-Clad' Real Stone Veneer System as a wall cladding and stonework to the locations identified on the drawings, complete with all system components and accessories. All aspects of this work shall be in complete accordance with Craftstone NZ Ltd technical literature (check www.craftstone.co.nz, or call 0800 638 899 for the latest editions), BRANZ Appraisal No.793, other relevant product manufacturers' recommendations, and as shown on the drawings.

SMARTSPEC

No substitutions are permitted for Craftstone 'Schist-Clad' Real Stone Veneer wall cladding and stonework.

2.1.2 'Schist-Clad Panels' Real Stone Veneer

Supply and install the selected Craftstone 'Schist-Clad Panels' Real Stone Veneer System as a wall cladding and stonework to the locations identified on the drawings, complete with all system components and accessories. All aspects of this work shall be in complete accordance with Craftstone NZ Ltd technical literature (check www.craftstone.co.nz, or call 0800 638 899 for the latest editions), BRANZ Appraisal No.793, other relevant product manufacturers' recommendations, and as shown on the drawings.

2.1.3 'Feature-Schist Panels' Real Stone Veneer

Supply and install the selected Craftstone 'Feature-Schist Panels' Real Stone Veneer System as a wall cladding and stonework to the locations identified on the drawings, complete with all system components and accessories. All aspects of this work shall be in complete accordance with Craftstone NZ Ltd technical literature (check www.craftstone.co.nz, or call 0800 638 899 for the latest editions), BRANZ Appraisal No.793, other relevant product manufacturers' recommendations, and as shown on the drawings.

No substitutions are permitted for Craftstone 'Feature-Schist Panels' Real Stone Veneer wall cladding and stonework.

2.2 Stone Veneer & Colour

Help Note:
Select the appropriate colour.

2.2.1 'Basalt Grey' - Schist-Clad

'Schist-Clad' Stone Veneer: Individual natural schist stone pieces with a factory-prepared back face. Random sized stone pieces with a 20-30mm nominal thickness, 60kg/m2 approximate weight. Suitable for exterior and interior applications. Schist-Clad stonework can be Dry-stacked or Mortar Pointed - as specified. 90° external cornerstone options available.
Schist-Clad stones shall be installed to provide a uniform layered effect over the stonework façade and mortar bonded to a properly prepared 9.0mm thick fibre cement sheet substrate installed over a 20mm drained cavity.
Schist-Clad colour: 'Basalt Grey'.
