2 Clauses

2.1 Scope

Help Note:
For technical information on products to attach to this project, please visit productspec.co.nz/en/supplier/dulux.

2.1.1 Scope

Supply and apply the specified Dulux coating systems to the surfaces identified on the drawings and as noted in the schedules of the 'Dulux Painting Exterior' and/or 'Dulux Painting Interior' and/or 'Dulux Environmental Painting Exterior 'and/or 'Dulux Environmental Painiting Interior' sections within the Painting specification. All aspects of this work shall be in strict accordance with all relevant Dulux Technical Literature, DuSpec Specifications and Product Data Sheets (check www.duspec.co.nz, or call 0800 800 424 for the latest editions), other relevant product manufacturers' recommendations, and as indicated on the drawings and schedules.

No substitutions are permitted for any of the specified Dulux coating systems and their associated components and products.

SMARTSPEC

2.2 Warranties & Requirements

2.2.1 Warranties & Requirements

Warrant this work against failure of materials and workmanship under normal environmental conditions and use.

To fully comply with all Dulux NZ Ltd warranty requirements, Dulux coating system products must be applied in strict accordance with the manufacturer's requirements and procedures for substrate preparation and the application and sequencing of all coats as stated in the relevant DuSpec Specification Sheet and DuSpec Product Data Sheets.

If the Painting sub-contractor/applicator considers that an amendment to this specification is required, or where a suitable Dulux coating system for a particular substrate or section of work is not covered in the relevant Dulux specification, the Painting sub-contractor/applicator shall advise the contract administrator and any resulting amendment shall be approved before that section of work is allowed to proceed any further.

2.2.2 Project-Specific Warranty - Commercial Work

The Painting sub-contractor/applicator shall obtain and provide a project-specific Dulux Project Warranty upon completion of the Painting work. In order to obtain all necessary Dulux Product Warranties, the Painting sub-contractor/applicator shall contact their Dulux Trade Representative regarding the provision of the Dulux Project Warranty - all in accordance with Dulux requirements.

2.3 Qualifications

2.3.1 Qualifications

The preparation for and application of Dulux coating systems shall be carried out to best trade practice by experienced, skilled painters and applicators, familiar with the materials and the techniques specified, under the direct supervision of a member of the Master Painters New Zealand Association Inc., in accordance with the manufacturer's technical literature and to fully comply with all Dulux NZ Ltd warranty requirements.

The Painting sub-contractor/applicator shall provide all necessary equipment for the execution of all of the work, and shall remain responsible for ensuring proper completion of the work to the required standard.

2.4 Health & Safety

2.4.1 Health & Safety

Supply protective clothing and equipment. Inform employees and others on site of any hazards, and put in place procedures for dealing with emergencies.

Applicators shall handle Dulux products in accordance with the manufacturer's requirements as set out in the DuSpec Specification Sheet and relevant Product Data Sheets and in a manner that prevents deterioration of the product and contamination of the environment.
